Gigabit Cloud Router

Wireless AC1750 Dual Band Gigabit Cloud Router USB 3.0

Your media dreams have come true

The D-Link® Wireless AC1750 Dual Band Gigabit Cloud Router (DIR-868L) provides revolutionary Gigabit 802.11ac wireless speed – up to 1750Mbps² (combined 1300 AC + 450 N) – for flawless HD video streaming to multiple devices.

Seamlessly stream your media and add personal cloud storage to your mobile devices with the free SharePort™ Mobile App

With SharePort Mobile, you get immediate access to your favorite movies, photos and music you've saved on an attached USB drive. No more slow downloads or online streaming – just open the easy-to-use app and enjoy. Even better, with SharePort™ Mobile, you don't need to worry about running out of memory on your device, because your favorite files are kept on a USB drive.

Keep an eye on your network from anywhere

With groundbreaking mydlink™ Cloud Services, you can monitor your home network from anywhere on your iPhone®, iPad® or Android™ device. See websites that are being visited when you're not at home, block unwanted devices and receive email alerts when unauthorized connections are attempted. It's perfect for peace of mind, especially for on-the-run parents. See side panel for details.

Compatible with your current devices

The DIR-868L provides 450Mbps² Wireless N speed, so it's compatible with all your current wireless devices.

Great for large homes

The DIR-868L even boasts a high-powered amplifier for wall-to-wall coverage. Perfect for large homes and backyard coverage.
